Hi Team.

Attached is the agenda and information for the meeting on September 10th. It will be at TIFC (address in attachment) from 9-4:30. Please ensure you are there and ready to begin promptly at 9 as we have a lot to go over.

If you feel I have missed someone on this list who is a part of this federal group, please forward on to them as it was not intentional.

If you have any questions, please feel free to contact me.
Thanks!

Rosemont Copper Project Federal Hydro/Bio Working Group Meeting

September 10, 2014, 9:00 a.m. – 4:30 p.m. AZT
Tucson Interagency Fire Center
2646 E. Commerce Center Place, Tucson
(Just South of Drexel, off of Tucson Blvd—next to Intuit)

Dial-in Instructions:

Phone participants dial: (b) (6)

Web participants: (b) (6)

(Please try and login to web prior to meeting and verify computer compatibility to ensure you can view presentations)

Background:

In May 2014, the Coronado National Forest indicated that it would be reinitiating Section 7 consultation on the Rosemont Copper project. A larger working group met on June 10-11, 2014 to discuss new information and possible analysis approaches that could be used for the Supplemental Biological Assessment. On June 13, 2014, the Coronado sent out a request to participating agencies for specific information. On July 23, 2014, a group of Managers, Hydrologists, and Biologists met to discuss the new information provided, as well as to discuss a series of possible approaches for predicting future impacts to the aquatic and riparian habitat along Empire Gulch and Cienega Creek. Since then, the Federal Bio Information Group (FBIG) has met on July 31, August 12 and 19, to collaborate and explore all existing data and knowledge of the baseline conditions and identify key reaches for upcoming analyses.

Purpose of Meeting:

The purpose of this meeting is to discuss the progress and results of the FBIG and USGS reviews. This information will inform the approaches for predicting future impacts to the aquatic and riparian habitat along Empire Gulch and Cienega Creek. A goal of the meeting will be to identify the final steps and approach necessary for the Supplemental Biological Assessment analysis.

Agenda:

9:00 – 9:30	Welcome, Introductions	Mindy Sue Vogel
9:30 – 10:30	Update on FBIG Progress	Melissa Polm
10:30 – 11:30	USGS Review and Thoughts on Hydro Approaches	USGS: Nick Paretti, Stan Leake, and Jesse Dickinson
11:30 – 12:30	Lunch	
12:30 – 1:30	Hydro/Bio Example Analysis	Chris Garrett
1:30 – 4:00	Open Discussion of Analysis Gaps	ALL
4:00 – 4:30	Wrap-up, Discussion of Next Steps	Mindy Sue Vogel

FBIG Update

By Melissa Polm

SBA Process-

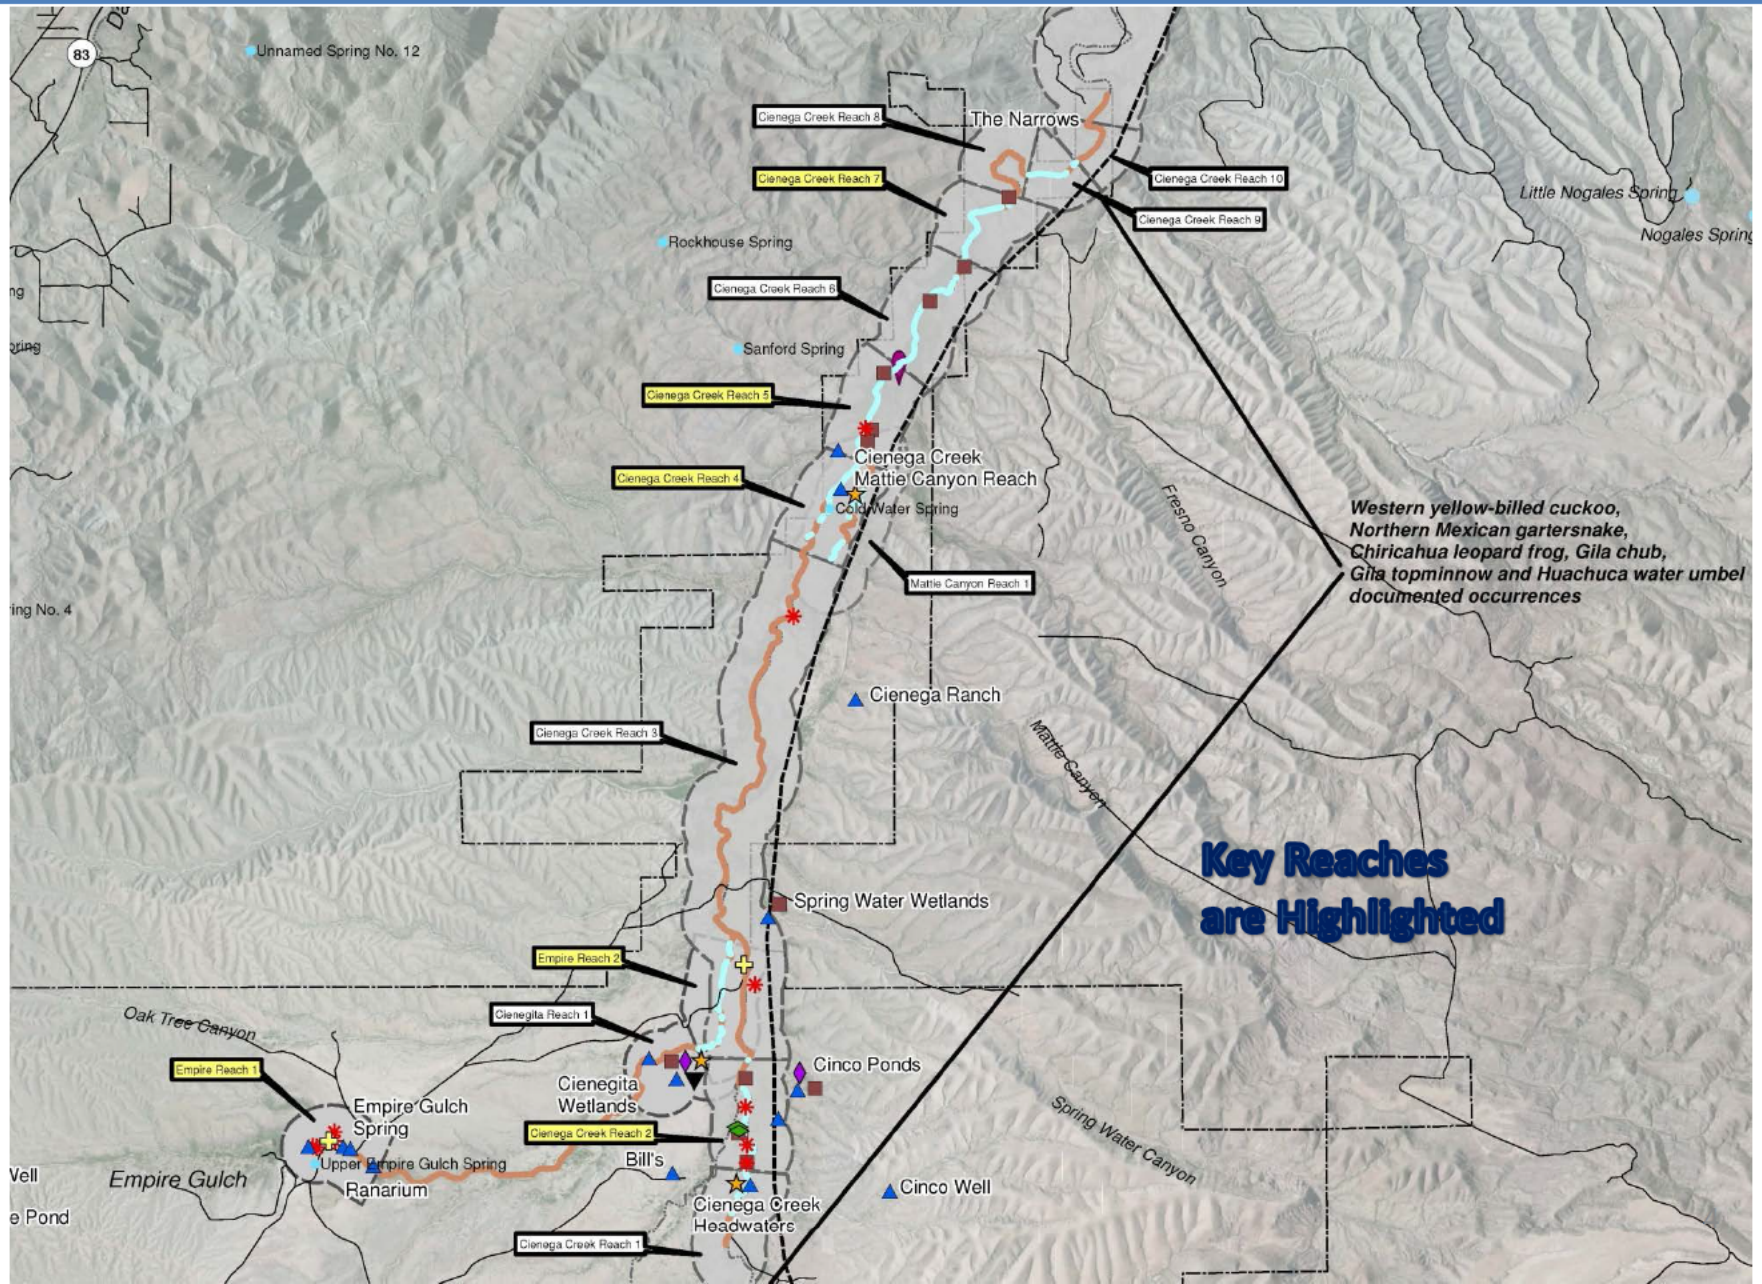

What we have accomplished

Process Step	Status
Initial USFWS/FS discussions	Completed 5/12/14
Orientation meetings/trips	Completed 8/13/14
Solicit input, request available information, and discuss predictive approaches	Completed 6/10-11
Obtain available information	Completed Still need Lawson and Huth 2003
Establish latest T&E baseline conditions (map)	Completed 8/19/14
Identify impact mechanisms/feedback loops that link hydrology to ecosystem effects (Chris handout – Table 1)	Completed 8/19/14
Identify key reaches (map and handout)	Completed 8/19/14
Compile available information on key reaches (Chris handout)	Completed 8/19/14

Available Information Obtained

Agency	Documents/Information
BLM	825 files including: LCNCA water use and well info, precip, hydrographs, wet/dry data, photos, species surveys, flow data, Riparian status and monitoring reports, Nature Conservancy data/info, Aquatic habitat survey
EPA	Alternate approach and Field notes
FWS	Existing Condition of species
Pima Cty	Cienega Creek summary report, Myers review of approaches, Impacts of mine, YBC survey report, ADEQ appendix, PAG Davidson Canyon paper
RCC	Alternate approaches and analysis, Water quality and Isotope data, Cross-sections and flow data, Additional groundwater model runs
SWCA	Alternate approaches, Sensitivity analyses

Reaches for SBA Analysis

Attachment reaches_Aug20.xlsx (14304 Bytes) cannot be converted to PDF format.

Subject: Save the Date: Mon 3/2/15, Rosemont Informational Meeting

Good Afternoon,

On **Monday March 2, 2015 from 8:30am-12:30pm (MST)**, the Coronado NF will be holding an informational meeting with Federal cooperators (BLM, USFWS, EPA, and USACE) to go over the Rosemont Supplemental Information Report (SIR). The SIR summarizes the review of new information received following the publication of the FEIS. We will explain the process we used to review the new information and prepare the SIR (approx. 200 pages). A copy of the SIR will be provided to you at the meeting.

We are also requesting your review and feedback on the process by **Friday March 6th**. We will be releasing the SIR to other agencies and the public on March 16th, therefore, your feedback by March 6th is important to us.

Please note that the meeting location has not been set. We will send that information out as soon as possible.

If you have any questions, please don't hesitate to call or email me, I am filling in for Mindy Vogel while she is out on maternity leave. If you need special accommodations for the meeting, please let me know.

Thank you,
Margie

Good evening all –

The PDF of the presentation for our meeting Monday at 8:30 am will need to be downloaded due to its file size. We didn't want to risk it getting kicked out based on system limitations. In order to retrieve the documents, please follow the instructions below. Login is case-sensitive, so please enter exactly as typed below. You will see three pdfs in this file-

1. The presentation from the meeting
2. The Supplemental Information Report (SIR) which is the text of the analysis and is just over 230 pages and
3. The SIR- Appendices

Go to (b) (6)

Login name: R

Password: D

Given that our client access server requires Java Script, and I know some of the agency computers have had problems with that, I'll attempt to send the presentation as well tonight to the EPA participants, just in case. I'll also monitor my email leading up to the meeting tomorrow, if there are any last minute problems.

Ivy—

Actually, I was just getting set to email my cancellation. Unfortunately, we weren't able to get VTC equipment for our meeting, so we will be using an outside web conferencing service.

Please cancel our VTC reservation. Thanks for your time and follow-up!

Carter—

We will send you a link for a ReadyTalk web conference so that your folks can still see what is presented and a telephone conference line for voice. Stay tuned.

Hi Team.

Looks like September 9th isn't going to work for all so I'd like to proposed September 10th (plan all day) for the next large group meeting (combined hydro and bio). I'll send out the details (i.e. agenda and location) as the date nears. Sorry for the confusion.... And I hope this date works better for more people. Please let me know if you have a conflict with 9/10.

Thanks!!

Subject: Rosemont Project federal hydro/bio working group

Hi Team.

Things are moving along with the FBIG (i.e. the bio-subgroup) this month. We are hoping to have some information to share along with some updated info on the hydro side too. Therefore, I'd like to propose another meeting with this Federal hydro/bio group to bring the two sub-group

discussions together and to discuss our path forward.

Please reserve September 9th (all day) for this meeting. I will send out the meeting details as the date nears – but I thought it best to get it on everyone's calendar now. Please let me know if you are unable to make this date.

Thanks!

Hi Team.

Attached you will find a number of documents for the upcoming meeting on June 23rd for the federal agency working group on the Rosemont Copper project. The agenda includes the time, location, and dial in instructions. The purpose for the meeting is described in the agenda as well as below in the original email from the FS to this group.

I am also attaching:

- (1) a summary of all the data and information reports that were turned in to the FS since the last meeting in June. Hopefully you have already had a chance to review this information as it was posted to the client share site [REDACTED].
- (2) Nine (9) briefing papers on different approaches that were presented at the last meeting. These will be discussed briefly by Chris Garrett at the start of the meeting on 7/23.

Please forward this message on only to others in your agency whom I may have missed that will be participating in this meeting.

If you have any questions, please feel free to contact me (info below).

Thanks!!

Subject: Save the date, July 23rd, Rosemont Copper Project hydrology working group - Federal agency subgroup meeting

As part of the follow-up to the hydrology working group meeting on June 10-11, we would like to meet with the sub-set of Federal agency participants on July 23rd, all day. The purpose of the meeting will be to review and discuss selected possible analysis approaches that could be used in the Section 7 process to describe future impacts to aquatic and riparian systems. The specific goal of the meeting will be to discuss the information presented in a series of draft briefing papers prepared by the Forest Service, in order to identify which approaches would decrease uncertainty or increase accuracy compared to existing analysis. Briefing papers will be distributed prior to the meeting to allow adequate time for review. The meeting location is yet to be determined, but we will make sure there is video conferencing capabilities for those unable to attend in person. Please let me know if you are able (or not) to attend. Thanks!

Hi Kathleen,

Unfortunately we are not able to change the time for this meeting due to Jim Upchurch travelling later in the day. Regarding your request for a videoconference, we do not have a meeting space available with that capability. However, we are going to set up a Readytalk presentation so that remote groups can call in and follow along with the presentation. We will send that information along soon.

Thank you,
Margie

Hi Melissa,

A reservation has been made for the Rosemont Federal Hydro/Bio Group Video Conference on September 10 from 9am to 5pm Arizona time. Dialing instructions for this video conference will be emailed out a week before it is scheduled to occur.

Carter, could you let us know what address we should dial out to in order to connect the EPA to this video conference? I think last time we might have called (b) (6)

Thanks!

Ivy

Subject: VTC request for 9/10 meeting

My FS VTC still isn't working, so I have to submit this from other email. Please let me know the calling info when you have it. Also, this EPA office has joined our calls numerous times through VTC, so it shouldn't be any issue.

As always, thanks for your help!

Hi Mindy, Melissa and Carter,

I was wondering if you could confirm which number we need to dial out to in order to connect the EPA to the Rosemont Federal Hydro/Bio Group Video Conference on Sept. 10 from 9am to 5pm Arizona time. Last time, we connected to the EPA using (b) (6)

Thanks so much!

Good Afternoon,

On **Monday March 2, 2015 from 8:30am-12:30pm (MST)**, the Coronado NF will be holding an informational meeting with Federal cooperators (BLM, USFWS, EPA, and USACE) to go over the Rosemont Supplemental Information Report (SIR). The SIR summarizes the review of new information received following the publication of the FEIS. We will explain the process we used to review the new information and prepare the SIR (approx. 200 pages). A copy of the SIR will be provided to you at the meeting.

We are also requesting your review and feedback on the process by **Friday March 6th**. We will be releasing the SIR to other agencies and the public on March 16th, therefore, your feedback by March 6th is important to us.

Please note that the meeting location has not been set. We will send that information out as soon as possible.

If you have any questions, please don't hesitate to call or email me, I am filling in for Mindy Vogel while she is out on maternity leave. If you need special accommodations for the meeting, please let me know.

Thank you,
Margie
